

UNCOOKED MEAT IS VERY DANGEROUS

Fearful Suffering Caused by Eggs of Parasite
Which It May Contain—Statement
by a Priest

Cincinnati, O., Jan. 24.—Prob. amply verified, for not only hundreds, but the most unusual feature of the but thousands of Cincinnati people excitement that has been created by have been relieved of some of these L. T. Cooper's visit to this city is the fearful parasites since taking Cooper's removal of parasites or tape-worms preparation, and the entire city has been aroused by the fact.

During the early part of Cooper's stay in Cincinnati individuals who enormous size to startle the inmates taking "New Discovery," as it is called, brought either to himself or to John Baptist Arnolds, one of the best known and most beloved priests in this section of the country, verifies this. His statement among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pains in the lower part of my back, and would have to sit down."

"Few indeed realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that one-half of the chronic stomach trouble so universal is caused by these parasites.

"Individuals may have them for years and not be aware of the reason for the continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality."

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of the "New Discovery" seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

COUNTY CORRESPONDENCE.

BUSINESS COLLEGE NOTES.

Frank Simms, owing to illness, was detained from school duties last week.

A first-class Oliver typewriter for sale. Inquire at College office. Mr. Kim, our official court stenographer, uses the Oliver machine, which is sufficient endorsement.

The actual business department is now in charge of Guy McDaniel, banker; George Manley, wholesaler, and Miss Minnie Guessing is in charge of the commercial exchange.

Sophie Weiler, who was one of our bookkeeping students last year, has just written President Moonhart that he is at present profitably employed as clerk in the House of Representatives, Jefferson City.

Francis Danze states in a recent letter that he has resigned his position with the Hargadine-McKinstry Company and is now with the Frieso Ry., in the general office, this being quite a merited promotion.

Our school roster shows the following new students since January 2d, 1907: May Williams, Elvins; E. C. Weaver, Flat River; Elsie Johnston, Bellevue; Annie Mengen, Isaac Weile, E. C. Schramm and Van B. Cloud of Farmington.

Our athletic association held an important meeting this week and elected Professor Moonhart general manager in order that both football and baseball games may be properly and legally scheduled; hence, all schools and colleges wishing to arrange games should communicate with the manager.

Dr. Perkins, County Coroner, visited our school last Friday afternoon, and made a very interesting and practical talk, offering many valuable suggestions. The Doctor seemed to fully enjoy witnessing the students as they were engaged in having an old-fashioned spelling bee. Miss Irene Nixon won the honor for the afternoon, having "spelled down" all the others one time, while there were two draws.

LOUGHBOROUGH.

Miss Lottie Dowell spent last Saturday in Farmington.

Lytle Barton of near Elvins attended church here last Sunday.

Mrs. Lizzie Kirkendall and children of Bonne Terre visited relatives here several days the past week.

Miss Ethel Dowell of Shirley, Mo., visited her sister here a couple of days he past week.

Miss Helen Montgomery, president of Elmwood Seminary, of Farmington,

HER HAT ANNOYED HIM.

Great Milliner Finally Rearranged Quills at Wrong Angle.

How the soul of a true artist was stung is told by a woman who has just returned from Paris. Though she brought many beautiful gowns home with her, she had saved out her oldest clothes to wear upon the steamer.

In her compartment of the train from Paris to Cherbourg there sat opposite her a middle-aged man. He kept looking at her, and especially at her hat, with such marked disapproval that she felt extremely uncomfortable, and wished she had worn some of her good clothes.

On board the steamer she discovered this same man was a passenger, and whenever she met him on deck he made her feel the same discomfort by staring at her hat.

"Pardon me, but I am M. L." he said, giving the name of a great milliner. "Ever since I saw you I have been distressed by the angle at which the quills on your hat are put on; would you permit me to arrange them properly?"

The woman's amusement was great as she took off her hat. He gravely adjusted the quills, then said:

"Thank you very much. It is such a relief to me not to see that inartistic angle."

And he walked away without a smile.

TOOK ALL THE BLAME.

Stately Courtesy Displayed by Burman to Englishman.

In the country district of Burma the natives still practice the old-world stately courtesy, which is now seldom found in the cities where the natives have been long in contact with Europeans.

An English gentleman who had bought a new pony was trying him one morning when the animal bolted and ran full speed down a narrow road.

Straight ahead was a native cart, in which was a family party out holiday-making. The pony dashed into the midst of the merrymakers, and severely injured the native who was driving.

Before the Englishman had an opportunity to explain his unexpected onslaught the Burman picked himself up and bowed low.

"My lord, pardon," he said, apologetically, "my cart should not have been there."

Her Original Scheme.

She was very proud of her first bank book, and determined to make none of the silly mistakes she had read about in the joke columns of newspapers. There was no danger of overdrawing her account. Every check was duly recorded on the stub, and after every four checks a balance was correctly struck.

"But how is it?" asked the man one day when looking over the book: "how is it that your checks always come out in even dollars? Do you never have a sum like \$5.11 to pay?"

"Yes, often; but I have a famous scheme," she explained, gleefully. "It's such a bother to add up the cents that I just make the check out for five dollars, and send the 11 cents in postage stamps."

FRESH AIR FOR PNEUMONIA.

Dr. Northrup, professor of children's diseases in Columbia university, was the first to break away from the tradition of the close, warm room and to take his pneumonia patients to the roof. In the cold and snow and winter winds he placed his patient on the house-top, clothed and bedded against the cold, and gave the first dose of cold, pure air to the lungs of the sufferer. Success has been such that the treatment has been spreading until outdoor winter for the pneumonia victim promises to be as widely accepted as it is becoming for the tuberculous patient.

Notice of Stockholders Meeting

Notice is hereby given that a meeting of the stockholders of the Koeth Manufacturing Company will be held at the office of the company, in the Farmers' Bank Building, in the city of Farmington, Missouri, on Saturday, March 2d, 1907, at 2 p. m., for the purpose of voting upon a proposition to increase the capital stock of said company from fifteen thousand (\$15,000.00) dollars, its present capitalization, to sixty thousand (\$60,000.00) dollars, and for a re-organization of the company, and for the transaction of such other business as may lawfully come before said meeting.

MAUDSON R. SMITH, President.
R. F. MITCHELL, Secretary.
December 28, 1906.
